PROFESSIONAL SUMMARY

IT Support and Systems professional with 4 years of hands-on experience supporting approximately 200 staff, maintaining IT infrastructure, administering networks and servers, troubleshooting hardware and software, supporting business applications, and implementing digital workflow solutions. Experienced in IT support, network administration, MikroTik, VLANs, DHCP, NAT, load balancing, firewall rules, Active Directory, Group Policy, Windows Server, Ubuntu Server, SQL, system analysis, software debugging, and business process automation. Currently pursuing a Bachelor of Computer Science, with previous study in Management Information Systems. Experienced in translating user requirements into practical technical solutions and collaborating with developers to improve systems and workflows.

CORE COMPETENCIES

- IT Support & Troubleshooting
- Network Administration
- Active Directory & Group Policy
- VLAN Segmentation
- Load Balancing & Firewall Rules
- SQL Database Support
- Requirements Analysis
- Software Debugging
- System Administration
- IT Infrastructure
- MikroTik RouterOS
- DHCP & NAT
- Windows & Ubuntu Server
- System Analysis & Design
- Business Process Automation
- Developer Collaboration

PROFESSIONAL EXPERIENCE

IT Support | August 2022 – Present

Pannasastra International School ~ Neak Oknha Hong Piv Kamboul 3 Branch

IT Support & User Support

- Provide day to day IT support for approximately 200 staff and users across school operations as part of a 2-person IT team.
- Troubleshoot computer hardware, software, operating systems, printers, drivers, applications, and user-access problems.
- Install and configure software, printer drivers, workstations, and IT equipment.
- Support 20+ standard computers and a 30-computer computer lab environment using vCloudPoint.
- Support approximately 30 to 40 classrooms and associated technology infrastructure.

Network Administration & Infrastructure

- Configure and maintain MikroTik RouterOS, including DHCP, NAT, load balancing, firewall/filter rules, and routing.
- Design and maintain VLAN segmentation for Management, Staff, Floor, Guest, and Student/Lab networks.
- Configure filtering and access rules to isolate network environments while permitting required inter-VLAN resources.
- Work with Ruijie networking equipment and perform network connectivity troubleshooting and infrastructure maintenance.
- Maintain approximately 30 access points, 10 switches, and 1 primary router.
- Install and troubleshoot network cabling and related infrastructure.

Active Directory & Windows Administration

- Administer Active Directory users, groups, permissions, and organizational resources.
- Join computers to the domain and troubleshoot domain, authentication, and permission issues.
- Configure Group Policy for different departments to apply department-specific policies, permissions, and resources.
- Manage user and group access to shared resources and network services.

Server & Infrastructure Administration

- Install and maintain Ubuntu Server infrastructure and internal file-server services.
- Deploy and maintain Uptime Kuma for service and infrastructure monitoring.
- Deploy and configure AdGuard Home for DNS-based school network content filtering.
- Configure filtering policies to restrict inappropriate websites and categories according to school requirements.
- Implement automated Telegram bot alerts for critical MikroTik/network infrastructure availability.

CCTV & Physical Network Infrastructure

- Install and maintain approximately 130 IP cameras and NVR systems.
- Troubleshoot network connectivity and hardware issues affecting CCTV availability.

School Management System, SQL & Developer Collaboration

- Support the school's management system across 4 campuses, including approximately 6 to 7 system users per campus counter.
- Investigate user reported application and workflow problems using SQL queries and database analysis.
- Analyze whether issues originate from user processes, application behavior, or database data.
- Translate user requirements and operational problems into clear requirements and proposed digital solutions for developers.
- Report software bugs, assist with reproduction and testing, validate fixes, and identify workflow improvements.

Business Process Digitization & Automation

- Develop and support internal payment workflows for School Bus, Summer Course, and Uniform payments.
- Automate payment calculations, daily income reports, participation/purchase summaries, Cross campus reporting, and receipt generation.
- Reduce approximately 1 to 2 hours of manual administrative work per day through workflow automation.

School Bell & Alert System

- Maintain and troubleshoot the school's automated bell/alert system following handover from a previous developer.

PROJECTS

• School Attendance Management System | *PHP, Laravel, SQL, HTML, CSS, JavaScript*

Developed a web based attendance system with authentication and Role-Based Access Control (RBAC), different permissions by role, and attendance records.

• School Bus Payment System | *Spreadsheet Automation, Google Apps Script*

Built an internal payment workflow with payment records, automated calculations, daily income reporting, summaries, multi campus reporting, and receipt generation.

• Summer Course Payment System | *Spreadsheet Automation, Google Apps Script*

Built an internal registration and payment workflow with participant records, automated calculations, reporting, summaries, and receipts.

• Uniform Payment System | *Spreadsheet Automation, Google Apps Script*

Built an internal workflow for uniform purchases and payments with automated records, calculations, reporting, summaries, and receipts.

• Personal Portfolio Website | *HTML, CSS, JavaScript*

Developed a personal portfolio website to present technical skills, projects, and professional experience.

TECHNICAL SKILLS

- **Programming & Development:** C# (Intermediate), C# Windows Forms (Intermediate), PHP (Intermediate), Laravel (Intermediate), SQL (Intermediate), HTML (Intermediate), CSS (Intermediate), JavaScript (Beginner), Google Apps Script (Beginner), Python (Beginner), C (Beginner)
- **Networking:** MikroTik RouterOS, Cisco Networking, VLAN, DHCP, NAT, Load Balancing, Firewall & Filtering, Network Routing, Network Segmentation, Network Cabling, IP Cameras, NVR, Wireless Access Points, Network Troubleshooting
- **Systems & Infrastructure:** Windows Server, Active Directory, Domain Controller, Group Policy, User & Group Administration, File Server, Ubuntu Server, AdGuard Home, Uptime Kuma, vCloudPoint
- **IT Support:** Hardware Troubleshooting, Software Troubleshooting, Computer Repair, OS Installation, Software Installation, Printer Configuration, Driver Installation, User Support, Network Troubleshooting, CCTV/IP Camera Support
- **Systems & Business Analysis:** System Analysis & Design, User Requirement Analysis, User Story Analysis, Business Process Analysis, Workflow Optimization, Software Debugging, Bug Reporting, SQL Database Troubleshooting, Developer Collaboration

EDUCATION

- **SAMDECH PREAH MAHASANGHARAJAH BOUR KRY UNIVERSITY:** Bachelor of Computer Science | 2024 – Present | Expected Graduation: 2027
- **SETEC INSTITUTE:** Bachelor of Management Information Systems | 2020 – 2024
- **SOVANNAPHUMI SCHOOL:** High School | Completed 2020

CERTIFICATIONS & PROFESSIONAL TRAINING

- CCNA1 — Cisco Networking Academy (NetAcad), completed 2026
- CCNA2-B2: Switching, Routing, and Wireless Essentials | Cisco Networking Academy / Samdech Preah Mahasangharajah Bour Kry University (Completed July 1, 2026)
- Foundational C# with Microsoft Developer Certification | freeCodeCamp & Microsoft (Completed March 13, 2026)
- Deploy and Administer Linux Virtual Machines on Azure | Microsoft (Completed April 8, 2026)
- AZ-104: Prerequisites for Azure Administrators | Microsoft (Completed April 8, 2026)
- Active Directory Domain Services (AD DS) | Microsoft (Completed April 8, 2026)

LANGUAGES

- Khmer: Native
- English: Intermediate

PROFESSIONAL STRENGTHS

- Problem Solving & Root-Cause Analysis
- Analytical & Critical Thinking
- Systematic Troubleshooting
- Software Debugging & Issue Resolution
- Requirements Analysis & Process Understanding
- Technical Research & Technology Evaluation
- Adaptability & Continuous Learning
- Clear Technical Communication
- Cross-Functional Collaboration
- Time Management & Prioritization
- Ability to Work Under Pressure
- Continuous Improvement Mindset

PROFESSIONAL INTERESTS

- IT Infrastructure & Network Engineering
- System & Server Administration
- Network Security
- Application Support & Software Development
- IT Automation & Scripting
- Cloud Technologies & Infrastructure
- System Design & Integration
- Database & Business Application Systems
- Emerging Technologies & Technology Research
- Continuous Learning & Professional Development
- Automation & Scripting
- IT Service Management & Process Improvement
